

STUDENT BICYCLE USE

Students are permitted to ride bicycles to school. Bicycles must be parked and locked in the designated rack areas. While on school grounds, all bicycle riders should ride with caution. The Board of Education encourages the institution of programs which will:

convince the bicycle operator that a bicycle is a vehicle rather than a toy,
teach the Rules of the Road, and
promote bicycle safety.

Such programs are recognized as particularly important in the early spring and just before school closes for the summer and just after school opens in the fall.

Any student found to be endangering the safety of himself/herself or others while riding a bicycle on school grounds will have his/her bicycle privileges denied.
